

Question 1. *Provide the dates of performance evaluation or testing of the overfire air system (referred to in the response to the EPA's original September 28, 2010 CAA Section 114 request) for Units 1 & 2 at the facility.*

Unit 1 testing of the overfire air system was conducted on September 6 through 9, 2003.

Unit 2 testing of the overfire air system was conducted on June 14 and 15, 2004.

This response was prepared by IPSC employee Dean E. Wood.
